

## Aylesbury Calendars of Prisoners(DVD)

The DVD of the Calendars of Prisoners covers the period 1783 to 1892 for Assizes and 1787 to 1909 for Quarter Sessions. There are gaps in these time periods where copies of the original documents are no longer available in the CBS. The information relating to an individual or event is generally fairly brief so this publication should be regarded as a “finding aid”. It briefly describes the charge against the individual and, sometimes, the outcome of the trial. There is an index of approximately 28,000 names which includes those appearing before the court and their victims and/or witnesses. The index provides a link to the image of the original document in which the name appears. [There is a list of the surnames of Prisoners appearing in these files](#).
